BRUCE 'ZEN' BENEFIEL  
MA, MBA, TLC

Author, Coach, Facilitator and more... Zen had 'visitations' as a child from unknown origins and a Near-Death Experience as a teenager that compelled him to ask deeper questions and explore the realms of consciousness and reality to extreme measure.

His professional careers span aerospace manufacturing, education & training, health foods, road & bridge construction, special events and television production.

He engages audiences with humor, insight and transformational moments. To say his brilliance and range of interests are 'eclectic' engages understatement. You can see it in his eyes when you have the opportunity to look.
